ABRASION

## New-Peel®

### A MODERN, COMPACT, and EASY OF USE DEVICE.

N 1400® has a 45° ergonomic applicator granting safe and precise work to professionals. The equipment comes with timer and pump control. Its stainless steel tungsten tips are available in four facial and two body micron sizes.

Another innovation are Noto®'s exclusive disposable tips NEW-PEEL®. Adaptable to this equipment as any MDA applicator in the market.

### MDA DISPOSABLE TIPS - NEW-PEEL®

Noto developed disposable dermoabrasion tips, NEW-PEEL®.

N 1400® comes with five standard stainless steel tips or with NEW-PEEL®, according to user's request.

Benefits of disposable tips NEW-PEEL® includes biosafety, cleaning time, hygiene, and risk-free of cross-contamination transmission. Not expending in desinfectant and cleaning costs.

For more information about NEW-PEEL® please go to **gadget** section of our website.

**NOTO**
